

Supervisor Time Reporting Codes for IUOE Local 399 - HP & BM

TRC	Description	Instructions for Use
1REG	Regular - Shift 1 - Overtime	This code is used to report regularly worked hours. If any overtime or double time is worked on that day, the system will automatically add the appropriate overtime to be paid.
2REG	Regular - Shift 2 - Overtime	This code functions the same as 1REG, however the system will automatically add any appropriate shift differentials for the second shift, and will pay out any overtime/double time worked.
3REG	Regular - Shift 3 - Overtime	This code functions the same as 1REG, however the system will automatically add any appropriate shift differentials for the third shift, and will pay out any overtime/double time worked.
AC	Administrative Closure Day	This code is to be used on University designated Administrative Closures, whether planned or unplanned. Please see the University calendar for dates of Administrative Closures.
ARE*	Asbestos Removal 1.00	This is a differential applied to any work done designated as Asbestos Removal.
ARS*	Asbestos Rmvl Supervisor 2.00	This code is a differential that is applied to any work done that is designated as Asbestos Removal in a supervisor capacity
BRV	Bereavement	Leave time that can be taken in the event of a death of a family member. Please refer to University Policy 3.1.11, "Leave of Absence" for more details and instructions on proper use.
CTB*	Compensatory Time Banked	This code banks comp time. When processed, it will multiply out by 1.5X. One hour of CTB will result in 1.5 hours of comp time banked for the employee. This code bypasses system rules normally in place.
CTU	Compensatory Time Used	Use this code to use comp time that is currently banked.
D08*	Shift Differential 1.00	This code is used to manually enter in a shift differential. Typically this is used when specific accounts need to be charged. This code bypasses the system rules normally in place.
D09*	Shift Differential OT 1.50	This code is used to manually enter in the overtime shift differential. Typically this is used when specific accounts need to be charged. This code bypasses the system rules normally in place.
D10*	Shift Differential DT 2.00	This code is used to manually enter in the double-time shift differential. This is typically used when specific accounts are charged. This code bypasses system rules that are normally in place.
DOCK	Dock Time	Dock time is used when the employee has no leave time left to enter on the timesheet.
DTB*	Double-Time Banked	This code is used to bank comp time at a double-pay rate. This code will bypass system rules that are typically in place.
DTP*	Double-Time Pay	This code is used to add double-time pay. This will bypass the system rules that are typically in place.
HOL	Holiday Time	Holiday time is to be used on designated University Holidays only. Please refer to the University calendar for approved dates.
JRY	Jury Duty	This code is to report time off of work spent on Jury Duty. Rate of pay is based off of employee's current hourly rate. Please refer to University Policy 3.1.11, "Leave of Absence" for more details and instructions on proper use.
MIL*	Military Time	In the event of Military Leave, please contact your Benefits Counselor prior to using this code. It is necessary to work with your Benefits Counselor first, and they will give instructions on what to do.

Supervisor Time Reporting Codes for IUOE Local 399 - HP & BM

TRC	Description	Instructions for Use
OVT*	Overtime	This code is used for entering manual overtime. This code will bypass system rules that are normally in place.
