Preamble

This Agreement is made and entered into on the date hereafter set forth by and between the Board of Trustees on behalf of Illinois State University (hereinafter referred to as the Employer) and certain Civil Service employees of Illinois State University, represented by Local 399, International Union of Operating Engineers, AFL-CIO (hereinafter referred to as the Union).

Article 1: Authorization

This Agreement is authorized by Section 36d of the Illinois Statute establishing the State Universities Civil Service System of Illinois (SHA, Chapter 24 1/2, Section 38b(3)); in accordance with the Board Regulations of the Board of Trustees recognizing collective bargaining; and Public Act 83-1014 (Illinois Educational Labor Relations Act).

Article 2: Purpose of Agreement

It is the intent and purpose of this Agreement to promote a sound and mutually beneficial relationship between the Employer and the Union. The Employer and the Union are committed to the uninterrupted effective performance of the teaching, research, and public functions of the Employer, subject to any changes in State or other laws or policies applicable to the Employer. The Union will strive to maintain these functions through the performance of the regularly assigned and related duties of the classifications covered by this Agreement.

Article 3: Limitations

A. This Agreement shall not supersede: (1) applicable Federal and State laws, as they may be amended from time to time; (2) Statutes and Rules of the State Universities Civil Service System of Illinois, as they may be amended from time to time; (3) the Statute of the State Universities Retirement System, as it may be amended from time to time; (4) the By-Laws and Board Regulations promulgated by the Board of Trustees, as they may be amended from time to time; (5) provisions of the policies and procedures of Illinois State University, as they may be amended from time to time.

B. In the event of conflict among any of the foregoing as enumerated in Section A above and any provisions of this Agreement, the foregoing shall prevail except where a deviation from the same, expressly recognized herein, is agreed upon in express terms hereunder.

C. This Agreement constitutes the sole and entire existing Agreement between the parties hereto and supersedes all prior Agreements, commitments, or practices
between the Employer and the Union or its employees, and expresses all obligations of and restrictions imposed on each of the respective parties during its term.

D. Waiver of Additional Negotiations: The parties acknowledge that they have had the opportunity to negotiate all items not removed by law, and therefore each waives the right to negotiate any other subject during the term of this Agreement, except by mutual consent.

E. Should any provisions of this Agreement or any application thereto become unlawful by virtue of any Federal or State law or Executive order of the President of the United States or the Governor of Illinois, or an order or decision of any court of competent jurisdiction, the provision or application of a provision of this Agreement shall be modified by the parties to comply with the law, order or decision, but in all other respects the provisions and application of provisions of this Agreement shall continue in full force and effect for the life thereof.

Article 4: Management Rights

The Employer continues to retain, whether exercised or not, the sole right to operate and manage its affairs in all respects. Any power or authority which the Employer has not abridged, delegated or modified by the express provisions of this Agreement is retained by the Employer. The rights of the Employer, through its management officials, include but are not limited to the following...

- determine the overall budget of the employer;
- determine control and exercise discretion over the organization and efficiency of operations;
- direct the employees, including the right to assign work;
- hire, examine, promote, train, and schedule employees in positions with the employer;
- demote, discharge, or take other disciplinary action against the employees for proper cause;
- increase, reduce, change, modify, or alter the composition and size of the workforce, with proper notification of the local union;
- determine the purpose of each of its service areas;
- set standards for services to the public;
- determine the locations, methods, means, and personnel by which new or temporary operations are to be conducted, including the right to determine whether goods and services are to be provided or purchased;
- change or eliminate existing methods, equipment, or facilities.
Article 5: Union Recognition

The Employer recognizes the Union as the sole and exclusive representative in all matters pertaining to wages, hours of work, and working conditions for all Civil Service employees in the classifications identified under Schedule A (“Wage Rates”) herein. The Employer recognizes the Union’s interest in any changes which materially affect conditions of employment of those it represents and the need to keep it informed prior to any such changes.

The Employer will negotiate regarding any change of conditions of employment except those controlled either by law or established by existing provisions of Illinois State University policies and the rules and regulations promulgated by the Board of Trustees.

Article 6: Union Deductions

Section 1: Union Deductions

The Employer agrees to deduct Union dues, assessments, and Union sponsored benefit program contributions from the pay of those employees who are Union members covered by this Agreement and who individually, on a form provided by the Union, request in writing that such deductions be made. The Union shall certify the current amount of Union deductions.

Section 2: Remittance

The amount of the above employee deductions shall be remitted to Local 399, International Union of Operating Engineers, after the deduction is made by the Employer with a listing of the employee, University identification number, and the individual employee deduction(s).

Section 3: Acknowledgement of Applicable Law

It is understood and agreed that the Employer and the Union jointly acknowledge and respect the provisions of all applicable state and federal law in regard to dues authorization and revocation cards.

Section 4: Indemnification

The Union shall indemnify and hold harmless the Employer, its officers, agents and employees from and against any and all claims, demands, actions, complaints, suits or other forms of liability that shall arise out of or by reason of action taken by the Employer for the purposes of complying with the above provisions of this clause or in reliance on any list, notice, certification, affidavit or assignment furnished.
Article 7: Union Activity and Membership

The Employer and the Union agree that there shall be no discrimination against or coercion of any employee regarding Union membership, that Union membership is entirely a matter of the employee's free choice and determination. Further, the Employer agrees that there will be no discrimination against Union Spokespersons or officers of the Union who may be engaged in the negotiation of Agreements or the adjustment of grievances. The Employer shall approve payment of wages for two (2) Heat Plant employee representatives and two (2) Building Mechanic employee representatives for time spent in negotiations during the employee’s regular work shift.

During the effective dates of this Agreement, the Union and its members shall not solicit membership or carry on Union activity on the Employer's premises with the Employer's workers during their working hours without permission from the Director, Labor Relations or designee. A Union Spokesperson with permission of the applicable second level manager not covered by the bargaining unit or the Director, Labor Relations or designee, may leave his/her assigned work to investigate an alleged grievance or to present matters according to University Policy. The Union Spokesperson shall be in a non-pay status while so occupied if proper permission to absent himself/herself from work has not been obtained.

Article 8: Joint Responsibilities

The Employer and the Union agree that they will not practice discrimination against any employee covered by this Agreement in a manner which would violate any applicable laws because of race, religion, color, national origin, sex (including sexual harassment, sexual assault, domestic violence, dating violence, and stalking), sexual orientation, order of protection, gender identity and expression, ancestry, marital status, age, disability, pregnancy, genetic information, unfavorable military discharge, or status as a veteran. Complaints involving discrimination or sexual harassment shall be reported to and handled by the Office of Equal Opportunity and Access or the appropriate office as designated by the University.

Article 9: No Strike - No Lockout

Section 1

During the term of this Agreement or any extension thereof, neither the Union nor any employee covered by the Agreement will instigate, promote, sponsor, engage in, or condone any strike, sympathy strike, slowdown, concerted stoppage of work, or any other intentional interruption of the operations of the University.

Section 2

The Employer will not lock out any employees covered by this Agreement during the term of the Agreement as a result of a labor dispute with the Union.
Article 10: Jurisdiction

In case of jurisdictional disputes arising between representatives of this Union and those of other Unions, it is understood that such differences shall be settled among the Unions concerned and the Employer, and that the Employer will not make any changes in an already established work assignment practice until there has been an agreement on the part of all Unions concerned and the Employer that such changes are in accordance with their mutual consent. If a question arises over a type of work for which no precedent has been established, the Employer will cooperate with the Unions in expediting in every way possible the matter of final decision.

The Employer reserves the right of decision, pending settlement among the Unions concerned, as to the work assignment and declares that such decision will be based not only on the Union agreements as above mentioned, but also on local prevailing practice covering the work.

Employees covered by this Agreement operate, maintain and repair machinery and equipment, including new equipment and technologies as introduced, for which they are assigned and responsible (see Civil Service specifications for guidelines). The parties have acknowledged that there is overlap in work functions of Heating Plant and other maintenance-related classifications and that this overlap is incorporated into the past practice that has evolved on campus. The basis for resolution of jurisdictional issues will be Civil Service job descriptions, existing agreements between classifications, University precedents and past practices. Work normally assigned to bargaining unit employees shall not be sublet or contracted out where such actions cause layoff of employees of the unit.

Article 11: Discipline

Whenever a status employee covered by this Agreement is issued discipline under the Valuing Individual Performance process, a copy of such discipline will be sent to the Union’s office, at the employee’s request. Discharge procedures will follow the State Universities Civil Service System Statute and Rules.

Article 12: Seniority

Seniority shall be by classification and shall prevail in regard to layoffs, choice of working shifts, so far as the operating needs of the department permit. Promotional examinations and training courses conducted in preparation for promotional examinations shall be open to all qualified employees within the bargaining unit in the promotional line. However, if the Employer decides to send an employee to a technical training school outside Illinois State University campus, all employees within the classification need not be sent to the training school.
Article 13: Grievances and Arbitration

Grievances

Section 1: Definition
A grievance is a dispute or difference between the parties with respect to the application, interpretation or meaning of the express provisions of this Agreement. All grievances shall be filed in accordance with the provisions herein. The grievant may be an employee, group of employees or the Union.

Section 2: Union Grievances
A grievance filed by the Union shall be initiated in writing at Step 2 of this procedure within five (5) workdays after the Union knows or should have known of the condition causing the grievance to be filed. For purposes of the grievance procedure, workdays are considered to be Monday through Friday.

Section 3: Time Limits
Failure of the grievant or the Union to comply with the time limits of this article shall render the grievance null and void and bar subsequent filing of the grievance. Failure of the employer to respond to the grievant or Union within the time limits of this article shall move the grievance to the next step. Time limits may only be extended by mutual agreement of the parties.

Section 4: Employee Representation
An employee or group of employees may at any time present grievances to the employer and have them adjusted without the intervention of the Union, as long as the adjustment is not inconsistent with the terms of this Agreement, and provided that the Union has been given an opportunity to be present at such adjustment. An attorney may not represent an employee through the grievance procedure but may represent an employee in arbitration.

Section 5: Steps Within Procedure
STEP 1: Within five (5) working days after the first occurrence, or within five (5) working days after the grievant knows or should have known of the conditions causing the grievance, the grievant and/or the Union Spokesperson shall orally present the grievance to the immediate supervisor (or designee) not covered by the bargaining unit. The immediate supervisor shall provide an oral response within five (5) workdays after such presentation.

STEP 2: If the grievance is not settled at Step 1 and the Union wishes to appeal the grievance to Step 2, the grievance and the Step 1 response shall be reduced to writing and signed by the grievant and Union representative, if any, and the applicable second level manager (or designee) not covered by the bargaining unit. The written grievance shall contain a complete statement of the facts, the provision or provisions of this Agreement at issue and the relief requested. The written
grievance shall be submitted to the applicable second level manager (or designee) within five (5) workdays of the immediate supervisor’s oral response. The applicable second level manager (or designee) shall meet within ten (10) working days with the grievant and Union representative in an attempt to resolve the grievance. The response shall be reduced to writing within five (5) workdays following the meeting.

**STEP 3:** If the grievance is not settled at Step 2 and the Union wishes to appeal the grievance to Step 3, the grievance shall be submitted to the Director, Labor Relations (or designee) within five (5) workdays after the Step 2 written response. The Director, Labor Relations (or designee) shall initiate scheduling a meeting no later than fifteen (15) working days after submission to Step 3. The Director, Labor Relations (or designee), the grievant and Union representative will meet at a mutually agreeable time. The Director, Labor Relations (or designee) shall issue a written response to the grievance within ten (10) workdays following the meeting.

**Section 6: Other Provisions**

If the grievance is one from an individual employee, the aggrieved employee and one (1) Union Spokesperson shall be given paid time off as necessary to investigate and process the grievance. If the grievance is one from a group of employees or a class action grievance, two (2) grievants representing the class shall be given paid time off for meeting, as necessary, in the processing of the grievance.

**Section 7: Arbitration**

If the grievance is not settled at Step 3, the Union may present the grievance to the Director, Labor Relations or designee within ten (10) workdays after receipt of the Step 3 response.

The parties shall obtain a list of seven (7) arbitrators from the Federal Mediation and Conciliation Service, the Illinois Educational Labor Relations Board, the American Arbitration Association or other mutually acceptable source. The parties shall meet in person or by telephone and alternately strike names, until a single name remains. The cost of services of the arbitrator, court reporter, transcripts and all other costs incurred by the arbitration shall be borne equally by both parties. Neither side shall be responsible for the expense of the other’s witnesses, representatives, any transcript it may order, and preparation and presentation of its own case.

The scope of the arbitration is limited to the terms of this Agreement and any supplemental agreements between the parties. Board of Trustees Regulations and By-Laws, University Rules and Policies, laws of the United States and the State of Illinois and Rules and Regulations of administrative agencies are not subject to arbitration.

Pursuant to current State Universities Civil Service System Statute and Rules, matters related to the discharge or dismissal of an employee are not subject to arbitration.
The arbitrator shall have no authority to amend, modify, nullify, ignore, add to, or subtract from the provisions of this Agreement or other existing rules. The arbitrator shall only consider and make a decision with respect to the particular issue necessary to resolve the grievance without recommendation or comment on any other matter. The arbitrator shall be without power to make a decision or render an award contrary to or inconsistent with, or modifying or varying in any way the application of laws and rules and regulations having the force and effect of law. No liability shall accrue against the Employer for a date prior to the date the grievance was presented in Step 1. The decision and award of the arbitrator shall be submitted in writing within thirty (30) days following close of the hearing or the submission of briefs by the parties, whichever is later, unless the parties agree to an extension thereof. The decision and award shall be based solely upon the arbitrator's interpretation of the meaning or application to the facts of the grievance presented. Past practices may be considered in interpreting an ambiguous provision of this Agreement or of University rules or procedures where it applies directly to such provision, but past practices, regardless of their nature, may not be considered by an arbitrator for the purpose of creating an employee or Union right or University obligation or liability. Subject to the provisions of this section, the decision of the arbitrator shall be final and binding on the Employer, the Union, and the employee(s) involved.

Article 14: Working Rules and Conditions

Section 1: Conditions of Employment

A Workers under a designated supervisor shall receive their orders from their supervisor and the designated supervisor shall be responsible to his supervisor for carrying out orders of management in the operation of the plant. Management shall inform the designated supervisor of any contemplated major repairs or alterations to be made in the equipment under the jurisdiction of the engineers.

B The Employer recognizes its responsibility to make all reasonable provisions for safety and health of the workers and to maintain a sound operating practice which will result in safe working conditions and efficiency of operations. To accomplish this, the Employer will conduct discussions of safety as necessary. The Union recognizes the responsibility of the individual worker in this regard and each employee is expected to obey safety rules and follow safe work practices to insure his/her safety, as well as that of his/her fellow workers and immediate supervisor. Where an unsafe practice or condition directly affects a member of this Union, it shall be reported as stated. If the matter is not resolved, the Union Business Representative may take it up directly with the Director, Labor Relations or designee.

Section 2: Shift Schedule, Shift, Work Day and Work Week

A. The Employer shall determine shift schedule requirements based upon the operational needs of the institution.
B. For the Steam & Power Plant (I, II, III, and IV), Water Station Operator, and Water Station Foreman classifications, a shift shall be defined as eight (8) consecutive hours of work.

For the Maintenance Repair Worker, Maintenance Repair Foreperson, and Building Mechanic classifications, a shift shall be defined as eight (8) consecutive hours with a thirty (30) minute unpaid lunch (7.5 hours of work); however, effective as soon as administratively feasible following January 8, 2023 a shift for these classifications shall be defined as eight and one-half (8.5) consecutive hours with a thirty (30) minute unpaid lunch (8 hours of work). Management will not move the Maintenance Repair Worker, Maintenance Repair Foreperson, and/or Building Mechanic classifications back to eight (8) hour shifts (7.5 hours of work) without concurrence from the Union.

For the Building Automation Technician I and II and Building Operating Engineer classifications, a shift shall be defined as eight and one-half (8.5) consecutive hours with a thirty (30) minute unpaid lunch (8 hours of work).

C. The work day is a fixed and regularly recurring period of twenty-four (24) consecutive hours and begins at 12:01 a.m. each calendar day.

D. The work week is a fixed and regularly recurring period of 168 hours, seven (7) consecutive twenty-four (24) hour periods. For the Steam & Power Plant (I, II, III, and IV), Water Station Operator, and Water Station Foreman classifications, the full-time work schedule in the work week shall normally consist of five (5) daily eight (8) hour shifts and not exceed forty (40) hours of work. For the Maintenance Repair Worker, Maintenance Repair Foreperson, and Building Mechanic classifications, the full-time work schedule in the work week shall normally consist of five (5) daily eight (8) hour shifts with a thirty (30) minute unpaid lunch and not exceed thirty-seven and one-half (37.5) hours of work OR five (5) daily eight and one-half (8.5) hour shifts with a thirty (30) minute unpaid lunch and not exceed forty (40) hours of work, as applicable based on Section 14.02B above. For the Building Automation Technician I and II and Building Operating Engineer classifications, the full-time work schedule in the work week shall normally consist of five (5) daily eight and one-half (8.5) hour shifts with a thirty (30) minute unpaid lunch and not exceed forty (40) hours of work. The work week shall begin at 12:01 a.m. on Monday and end at 12:00 Midnight the following Sunday. A shift starting time will determine which day will be considered as being worked.

E. It is understood that work forces may be reduced on holidays without change of shifts, provided, however, that sufficient unit employees shall be maintained to meet the workload within the jurisdictional coverage of this Agreement and to provide safe working conditions.

F. Employees covered by this Agreement may be requested at the direction of the Employer to attend departmental meetings. Employees not scheduled to work at
the time of the meeting will be compensated at the applicable hourly rate for the time they spend in attendance at the meeting. It is anticipated that these meetings will be held only on an occasional basis and that all employees will make every effort to attend.

The schedules for Building Operating Engineers and Building Mechanics who work other than a regular day shift will flex up to one (1) hour to accommodate mandatory meetings. All other mandatory meetings held outside of the one (1) hour flex schedule will be paid at the applicable hourly rate for the time they spend in attendance at the meeting.

**Section 3: Operations**

The Union recognizes that the employees it represents will provide the Employer service on a continuous operation basis.

**Section 4: Call-Back (exception – Section 2F above)**

Employees covered by this Agreement called back to work shall have a minimum guarantee of two (2) hours pay or payment for actual work performed, whichever is greater, at the applicable overtime rates specified elsewhere herein, provided that the employee reports on the Employer’s premises and is available for work. However, if the regularly scheduled shift starts within one (1) hour after call-back, the employee shall revert to the regular rate at the start of the regularly scheduled shift, but in no case be paid less than one (1) hour call-back at overtime rates for time worked prior to the shift.

Employees covered by this Agreement responding to work-related phone calls or other “after hours” communications (e.g. text messages, emails, etc.) shall be paid overtime for time spent performing work of the Employer.

**Section 5: Overtime Work (Non-Building Mechanic)**

Inasmuch as the Employer operates an educational institution, functioning in the public good and welfare, and services provided it by employees covered in this Agreement are essential to the operation of said institution, all employees through acceptance of this Agreement by their duly constituted bargaining agent, guarantee to perform reasonable amounts of overtime work whenever the Employer deems such work necessary, being paid for the said work at the rates established herein. Overtime work shall be offered and distributed as evenly as possible by classification. In emergency situations, in order to provide the best qualified personnel to handle the situation, including the ability to respond to the emergency in a timely manner, the standard procedure may be waived but the overtime distribution must be evened out through future overtime opportunities.
Section 6: Overtime Work (Building Mechanic Only)

For Building Mechanics – Overtime, when deemed necessary by management, shall always be offered to the person with the most seniority as defined below. Hours worked or refused are not tallied.

For general overtime assignments, a seniority list by classification within the department is used.

For specific overtime assignments, a seniority list by logical unit is used. These “units” are defined as each Residence Hall complex, Apartments, and Fire Systems. If the most senior person cannot be contacted or rejects the overtime, the next senior person in that unit is offered the overtime. An exception to this is that overtime work for fire systems is first offered to the person in the complex where the overtime is occurring, then to the specific seniority list. If the unit seniority list is exhausted, the most senior person in the department within the classification of Building Mechanic is called. This procedure continues until all persons on the seniority list have been offered the overtime and have refused or cannot be contacted.

For emergency overtime, assignments, in order to provide the best qualified personnel to handle the situation, including the ability to respond to the emergency in a timely manner, the standard seniority procedures may be waived.

For “holdover” overtime assignments, the employee already performing the task at the time is the first offered the opportunity to work the overtime.

Employees who do not wish to be called for overtime shall complete a standard form to be submitted to the supervisor which states that they do not want to be called for overtime. The employee may indicate that if the seniority list is exhausted, they may be contacted. The employee shall not be called for overtime unless a second letter is presented stating availability for overtime.

Section 7: Worker's Responsibility

The employees covered by this Agreement, through its acceptance by their duly constituted bargaining agent, are responsible individually and collectively for fulfillment of the provisions thereof applicable to them.

Section 8: Layoffs

The Employer will follow the State Universities Civil Service System Statute and Rules regarding notification of layoff.

Section 9: Worker's Termination of Employment

Unless excused from this requirement by the Employer, or termination of employment is occasioned by circumstances beyond the employee’s control, the latter will give the former ten (10) work days’ notice before terminating employment.
Section 10: Breaks
Employees are eligible for two fifteen (15) minute breaks per workday. The rest period is to be preceded and followed by an extended work period. Breaks are to be normally taken on campus. In the event no facilities are available, the employee will attempt to notify his supervisor.

Article 15: Benefits
Employees covered by this Agreement shall be entitled to all benefits granted by the Board Regulations of the Board of Trustees and the administration and interpretation of said benefits as set forth in University policy, as they may be amended from time to time. These benefits will not normally be diminished during the life of this Agreement and any improvements in any of them will be made applicable to employees covered by this Agreement. Whenever a holiday occurs during an employee's vacation or sick leave, such holiday shall be paid, but shall not be counted as part of the vacation or sick leave. Extra pay in lieu of vacation or sick leave will not be allowed.

Article 16: Wages
Section 1: Method of Establishment of Rates
A. Pay rates specified herein shall be arrived at by negotiations by and between the Parties.

B. FY2023 base wage rates will be as specified in Schedule A (Wage Rates). In order to be eligible for this retroactive increase, the individual must be an employee in the bargaining unit on January 8, 2023.

C. In FY2024 base wage rates will increase by 3.0% across the board, effective July 1, 2023.

D. In FY2025 base wage rates will increase by 3.0% across the board, effective July 1, 2024.

E. However, to the extent the State of Illinois appropriates funds to the University solely and specifically for FY2024 or FY2025 wage increases, in that fiscal year base wage rates in Schedule A will be adjusted by the greater of either the negotiated percent increase for that fiscal year (which is provided in lieu of the campus wage program/merit increase), as stipulated in Section 16.01C or 16.01D above, OR the percentage appropriated by the State of Illinois for wage increases, but not both. The implementation of these wage rates will be based upon the availability of appropriated funds. These wage increases will be implemented on an across the board basis to all classifications in the bargaining unit.
Section 2: Wages (Basic Straight-Time)

A. Basic straight-time hourly wages are hereby defined as those payable for work performed during the five (5) scheduled days of work in a work week, but not for more than eight (8) hours work in any one day (or 7.5 hours for employees in the Maintenance Repair Worker and Building Mechanic classifications who are assigned to an eight hour shift with a thirty (30) minute unpaid lunch).

B. Maintenance Repair Workers, Building Operating Engineers, and Building Mechanics, who participate on the Asbestos Abatement Team, will receive a $1.00 per hour differential for each hour worked in this capacity.

Maintenance Repair Worker, Building Operating Engineer, and Building Mechanics who are assigned and work as the Asbestos Abatement Team Supervisor shall receive $2.00 per hour differential for each hour worked in this capacity. Eligible employees will receive either the $1.00 per hour differential or the $2.00 differential for their work on the Asbestos Team, but in no case shall an employee receive both differentials for the same hours.

C. The wage scales as set forth in Schedule A.

Section 3: Wages (Overtime)

Time worked by the employees covered in this Agreement in excess of eight (8) hours in the daily work shift (unless otherwise specified herein), is overtime and will be compensated at one-and-one-half (1 1/2) times the basic straight-time hourly wages established herein. The shift differential will be added to the base rate for the purposes of computing overtime and premium pays for all hours worked during the applicable time.

For employees in the Maintenance Repair Worker, Maintenance Repair Foreperson, and Building Mechanic classifications who are assigned to an eight hour shift with a thirty (30) minute unpaid lunch, time worked in excess of 7.5 hours in the daily work shift is overtime and compensated at one-and-one half (1 1/2) times the basic straight-time hourly wage established herein.

Scheduled overtime will be designated as eligible or ineligible for compensatory time when offered. When an employee works overtime, he shall have the option to either receive the applicable overtime rate for the hours worked or receive compensatory time off with regular base pay for the equal amount of paid overtime hours (i.e., 8 hours at 1 1/2x = 12 hours compensatory time off with regular base pay) unless designated as ineligible for comp time when offered. The employee may accumulate up to a maximum of two weeks of compensatory time off. The employee must give notice to management and receive approval when he desires to use compensatory time off.
The use of accumulated compensatory time shall be granted based on operational needs of the unit. Compensatory time may be accumulated to a maximum of 75 hours (maximum of 80 hours for employees who work a 40-hour work week). Compensatory time is banked until used or paid out at a time of separation of service with the Employer.

Section 4: Wages Payable for Work During the Employee’s Day Off
Work in excess of forty (40) hours (or 37.5 hours for employees in the Maintenance Repair Worker, Maintenance Repair Foreperson, and Building Mechanic classifications who are assigned to an eight hour shift with a thirty (30) minute unpaid lunch) in any one work week (unless otherwise specified herein) shall be paid for at one and one-half (1 1/2) times the regular hourly rate. One and one-half (1 1/2) times the regular hourly rate shall be paid for all hours worked on the sixth day (the first day off) or the seventh day (the second day off) for vacancy coverage. However, double time (2) the regular hourly rate shall be paid for all hours worked on the seventh day (the second day off) if any hours are worked on the sixth day (the first day off). Double time (2) the regular hourly rate shall be paid for hours worked on the seventh day (the second day off) for emergency overtime and for scheduled overtime other than vacancy coverage.

Vacancy coverage will be paid at 1½ the regular base wage rate until minimum staffing levels as indicated on the bid sheets are met.

An employee who works less than forty (40) hours in any work week shall be paid at the rate of time and one-half (1 1/2) for all work performed in excess of eight (8) hours in any one day. An employee in the Maintenance Repair Worker, Building Mechanic, or Maintenance Repair Foreperson classification who is assigned to an eight hour shift with a thirty (30) minute unpaid lunch and who work less than 37.5 hours in any work week shall be paid at the rate of time and one-half (1 1/2) for all work performed in excess of 7.5 hours in any one day.

Section 5: Wages (Holidays)
The Steam and Power Plant (I, II, III, and IV), Water Station Operator, and Water Station Foreman classifications will observe the six (6) recognized holidays and Juneteenth on the traditional calendar day and the five (5) remaining holidays, which includes Memorial Day and the four (4) Floating holidays, on the day designated by the University.

The Maintenance Repair Worker, Maintenance Repair Foreperson, Building Mechanic, Building Operating Engineer, and Building Automation Technician classifications will observe the University designated holidays.

Work performed for the Employer by the employees covered herein on any holiday designated by the University shall be compensated at two (2) times their basic straight-time hourly rates, this being additional to payment to them of eight (8) hours (7.5 hours for employees in the Maintenance Repair Worker, Maintenance Repair Foreperson, and Building Mechanic classifications who are assigned to an eight
hour shift with a thirty (30) minute unpaid lunch) basic straight-time hourly rates for the holiday.

If an employee is scheduled to work on a holiday, the employee may opt not to work and collect holiday pay. The holiday will be offered in accordance with Schedule C: Holiday Scheduling Protocol.

In the event an employee is scheduled to work a holiday but cannot work, the employee called in to work overtime will only be paid at the rate (overtime or double-time) that the originally scheduled employee was to be paid.

**Section 6: Administrative Closure Days**

Employees in this bargaining unit are eligible for all University designated Administrative Closure (AC) days between December 26 – 31.

If there is an administrative closure day and the employee is required to take the day off, the employee shall be paid at the regular straight-time rate of pay. If required to work on an administrative closure day, the employee shall receive the straight-time rate of pay for the administrative closure day, plus straight-time pay for the work performed. Compensatory time (at straight time) may be taken in lieu of pay for the AC day at the discretion of the Employee.

Administrative closure days other than during the holiday shutdown shall be implemented in accordance with University policy and or practice.

**Section 7: Work Schedule Changes**

Except in emergency situations, whenever work schedules are changed at management's discretion, notice in writing of such change shall be posted in the Plant at least forty-eight (48) hours before such change becomes effective. Time worked as the result of a schedule change when notice is less than forty-eight (48) hours shall be paid at the appropriate premium rate for time worked, until the expiration of the 48-hour posting period.

Volunteers will be solicited first to fill the vacancy and if none are obtained, then the least senior within the classification will be moved to fill the vacancy.

Under normal circumstances, work schedule changes shall be posted at least fourteen (14) calendar days prior to the effective date of the change.

Employees on the same shift within the same classification shall be allowed to occasionally trade days off within the same pay period, with supervisory approval and based on operational needs, as long as it results in no additional cost for the University.
Section 8: Bidding Procedures

A. Steam & Power Plant (I, II, IIII, and IV), Water Station Foreman, and Water Station Operator Classifications

There will normally be three (3) specified bids per year covering classifications, days off, and hours of work. The effective date of any bid shall be the start of the first shift of the day, which is the beginning of a pay period, preceding the start of Spring, Summer and Fall semesters. The effective date for any bid may be modified by mutual agreement between both parties.

Those with most seniority in their classification will bid first. Anyone not bidding within two (2) of his/her work days will then forfeit his/her right to bid and the next person on the seniority list may then bid. That person who forfeited his/her right to bid then has two (2) more days in which to bid. Each failure to bid within the two (2) working days would result in forfeiture of bidding rights. If an employee is to be absent, they will submit to the applicable second level manager not covered by the bargaining unit their preferences in writing prior to the bid, indicating shift and days off desired.

Once you have bid and the next senior person has bid, you are locked into what you have bid.

Holiday bids shall be conducted with the same two-day limit.

B. Building Mechanic Classification

Bids covering days off, hours of work, and work location will be conducted annually. The effective date of the annual bid shall be the start of the first shift in the first pay period in December. The effective date for the annual bid may be modified by mutual agreement between both parties.

The bid process will be handled utilizing employee preference sheets and seniority. If an employee is to be absent, they must still submit to their immediate supervisor their preference sheet by the deadline for submission. Any employee who fails to submit their preference sheet prior to the deadline for submission will forfeit his/her right to bid. Management retains the right to assign employees to a bid position outside seniority order, or move employees outside seniority order, when the employee is under active formal discipline or based on staffing levels or by mutual agreement or when the employee’s preferences are not available. When exercising this right, Management will notify the Union Spokesperson of Management’s intention.

C. The Maintenance Repair Worker, Maintenance Repair Foreperson, Building Operating Engineer, Building Automation Technician I, and Building Automation Technician II classifications are not included in either of the bidding processes above until such time as there are additional employees or shifts in that classification.
Article 17: Reports Provided to the Union

Section 1: Represented Employee List

In January of each calendar year, the Employer shall provide the Union Business Representative with a roster of the employees in classifications covered by this Agreement. This roster will include each employee’s name, seniority, job classification, home address (provided the employee has not restricted release of this information), and hourly rate of pay.

Section 2: Personnel Transaction Reports

Twice each calendar month (but excluding any periods in which no promotions or terminations have been processed in the Employer’s personnel system), the Employer shall provide the Union Business Representative with a report of promotions and terminations involving employees in classifications covered by this Agreement and processed in the Employer’s personnel system since the prior report. This report will include the employee’s name, the type of transaction, and the effective date of the transaction. The Employer shall also provide the Union with information concerning employees newly hired into classifications covered by this Agreement, in accordance with and as expressly provided under Section 5/3(c) of the Illinois Educational Labor Relations Act, 115 ILCS 5/3(c).

Article 18: Termination

Section 1: Effective Dates of Agreement

This Agreement is effective 12:01 a.m., July 1, 2022, and shall remain in effect through 11:59 p.m., June 30, 2025. Except as specifically and expressly provided in this Agreement, neither party is required to negotiate any issue during the term of this Agreement. No earlier than ninety (90) days but no later than thirty (30) days prior to the expiration of this Agreement, either party may initiate negotiation of a successor Agreement.

Section 2: Changes or Amendments

Negotiations of proposed changes or amendments to this Agreement, specified in this notice, required by Section 1 immediately above, and the respondent’s reply thereto, shall begin not later than thirty (30) days following notification of one Party to the other that it seeks changes or amendments.

Section 3: Status of Agreement During Negotiations and Terminations Thereof

A. The Parties recognize joint responsibility to provide continuing service to the end that educational processes are not interrupted. If during the course of negotiations an impasse appears likely, every effort shall be made by them to resolve the dispute.
B. Negotiations, by and between the Parties, of proposed changes or amendments to the provisions of this Agreement, shall begin not later than thirty (30) days following notification of one Party or the other that it seeks changes or amendments. Such negotiations shall continue with the Agreement remaining in full force and effect until a new Agreement is reached or until this Agreement is abrogated by one Party, giving the other then ten (10) work days written notice that it has been terminated.

Section 4: Effective Dates of Changes or Amendments

These shall be established in negotiations by and between the Parties.

*Twelve-month starting rate at 80% of basic rate.

The Intern rate shall be at 95% of the classification’s starting rate.

Section 2: Steam and Power Plant I

For all new employees who enter the promotional line as a Steam and Power Plant I, at the end of the first twelve (12) months in the Steam and Power Plant I classification the following shall apply:

(a) The employee must have successfully completed the Heating Plant training and examination procedures;

(b) Then, based on the written recommendation of the Director of Facilities Management (or designee), the employee shall be offered an opportunity to take the State Universities Civil Service examination for the Steam & Power Plant II classification;

(c) Upon successful completion of the State Universities Civil Service examination, the employee shall go to the Steam & Power Plant II classification and base rate of pay.

Section 3: Second and Third Shift Differentials

Employees on the second and third shifts will receive a shift differential according to the following schedule:

07-01-09 .................$1.00/hour
### Schedule B: Overtime/Holiday/Premium Pay Matrix and Definitions

**Emergency Overtime** – Loss of life, limb, damage to equipment. University cannot operate.

**Scheduled Overtime** – Planned in advance and scheduled on calendar.

**Unscheduled Overtime** – Less than 16 hours of advanced notice.

**Vacancy Coverage** – Below minimum staffing levels (for Heating Plant Only).

Schedule C: Heating Plant Holiday Scheduling Protocol

A. Management determines staffing levels by classification.

B. Steam & Power Plant III can work as a Steam & Power Plant IV and a Steam & Power Plant II as needed.

C. Positions must be staffed in the following order:
   1. Steam & Power Plant IV positions should be filled first.
   2. Steam & Power Plant III positions should be filled second.
   3. Steam & Power Plant II positions should be filled last.

D. To fill a Steam & Power Plant IV position, do the following:
   1. Offer to the Steam & Power Plant IV on shift.
   2. Offer to the Steam & Power Plant III on shift.
   3. Offer to Steam & Power Plant IV(s) off shift (as long as it doesn’t create a 16 hour day).
   4. Offer to Steam & Power Plant III(s) off shift.
   5. If no one accepts the work assignment, the least senior Steam & Power Plant IV who normally works on the day and shift must work.

E. To fill a Steam & Power Plant III position, do the following:
   1. Offer to Steam & Power Plant III on shift (Regular Work Day).
   2. Offer to Steam & Power Plant III on shift (Regular Day Off).
   3. Offer to Steam & Power Plant III off shift (Regular Work Day).
   4. Offer to Steam & Power Plant III off shift (Regular Day Off).
   5. Offer to Steam & Power Plant II on shift (Regular Work Day).
   6. Offer to Steam & Power Plant II on shift (Regular Day Off).
   7. Offer to Steam & Power Plant II off shift (Regular Work Day).
   8. Offer to Steam & Power Plant II off shift (Regular Day Off).
   9. If no one volunteers to work, the least senior Steam & Power Plant III who normally works on the day and shift must work.

F. To fill a Steam & Power Plant II position, do the following:
   1. Offer to Steam & Power Plant II on shift (Regular Work Day).
   2. Offer to Steam & Power Plant II on shift (Regular Day Off).
   3. Offer to Steam & Power Plant II off shift (Regular Work Day).
   4. Offer to Steam & Power Plant II off shift (Regular Day Off).
   5. Offer to Steam & Power Plant III on shift (Regular Work Day).
   6. Offer to Steam & Power Plant III on shift (Regular Day Off).
   7. Offer to Steam & Power Plant III off shift (Regular Work Day).
   8. Offer to Steam & Power Plant III off shift (Regular Day Off).
   9. If no one volunteers to work, the least senior Steam & Power Plant II who normally works on the day and shift must work.
IN WITNESS WHEREOF, the Parties hereto have executed this Agreement by their duly authorized officers and representatives this 21st day of February, 2023, it being understood, however, that the obligations of the Union are contingent upon the Agreement being referred to the membership in open meeting and ratified by the majority vote of the employees covered thereby.

Extra-Help Building Mechanics/Extra-Help Semi-Skilled

The parties have agreed to the following guidelines for use of Extra Help Semi-Skilled and Extra Help Building Mechanics:

Extra Help Semi-Skilled Laborers – use of tools

1. All “power” tools are prohibited. “Power” is being defined as any tool that requires a charge; needs batteries and/or electricity to function. Hand tools used in demolition, assembly, and disassembly work assigned to semi-skilled laborers are permitted.

2. It is at the discretion of the area Building Mechanic(s), Building Mechanic Foreman, and/or Facilities Management staff directing the task to be completed to determine if power tools will be utilized.

3. Extra Help Semi-Skilled laborers shall not be used as Building Mechanics answering emergency calls or to perform technical work of the Building Mechanic.

Extra Help Building Mechanic

1. Extra Help Building Mechanics shall not be used as primary Building Mechanics to answer emergency service calls. However, they may be assigned to assist Building Mechanics answering emergency service calls.

2. Extra Help Building Mechanics may be assigned to perform work orders.

3. Extra Help Building Mechanics may be assigned to perform seasonal/project work within the scope of the Building Mechanic job description.

4. Extra Help Building Mechanics hold the same qualification as full-time status Building Mechanics. Extra Help Building Mechanics are not restricted in their use of tools.

5. Extra Help Building Mechanics will not be offered overtime until all available status Building Mechanics have been offered the opportunity to work.

Heating Plant Holiday Schedule

Holidays are designated by the University based on the predominant Monday through Friday schedule worked by its employees. Due to the unique twenty-four (24) hour per day, seven (7) day per week operation of the Heating Plant, this process does not always result in an optimal outcome for employees on non-traditional work schedules.

The University and Union have a collective bargaining agreement that contains the following language related to holidays:

**Section 5: Wages (Holidays)**

The Steam and Power Plant (I, II, III, and IV), Water Station Operator, and Water Station Foreman classifications will observe the six (6) recognized holidays and Juneteenth on the traditional calendar day and the five (5) remaining holidays, which includes Memorial Day and the four (4) Floating holidays, on the day designated by the University.

It is the parties’ mutual desire that employees on non-traditional work schedules have the opportunity to observe consecutive holidays on the traditional days. Therefore, when practical, the two (2) floating holidays that represent Christmas Eve and New Year’s Eve will be observed on the day before each respective calendar holiday.

The University agrees to notify its employees and the Union of the holiday schedule for Heating Plant employees on non-traditional work schedules and will endeavor to provide notice of any change prior to the August bid each year. However, in no case shall the notice be less than thirty (30) days without mutual agreement.

If this agreement proves to be ineffective for Management or the Union, both parties agree to meet to attempt to resolve the issue.

International Union of Operating Engineers – Local 399

**Heating Plant Holiday Scheduling Protocol**

The Heating Plant has historically posted a holiday bid for shifts on University holidays and administrative closures (December 26th through 31st) in accordance with Schedule C in the collective bargaining agreement. These bids have always been offered based on the classifications that are established by the initial bid for that time period.

It is recognized that when employees leave the University unexpectedly or are absent for an extended period of time during a bid period, they leave a vacancy on a shift that may be covered by an employee from a different classification. Based on this understanding, the parties agree to the following scheduling procedure when offering the holiday bid:

In the event there is a vacant position on a shift at the time the holiday bid is posted, the vacant position will be offered based on the classification of the employee covering the vacancy. Once Management has determined the classification the holiday bid will be posted and offered in accordance with Schedule C in the collective bargaining agreement. The decision on which classification is offered on the holiday bid is not subject to the grievance procedure.

Employees who are off work with no documented return to work date from Human Resources at the time the holiday bid is posted are not eligible to bid for the holiday schedule regardless of seniority.

The posting dates for holiday bids are as follows:

<table>
<thead>
<tr>
<th>University Holiday Periods</th>

Temporary Supervisor – Building Operating Engineers

Labor and Management agree to the following parameters to be used for a temporary supervisor in the Building Operating Engineer unit. The temporary supervisor will be assigned as needed and determined by management.

The employee will perform the general duties of the supervisor, excluding those duties listed below, and will receive the current rate of pay for their classification plus a $2.00 per hour differential for only the hours worked as a temporary supervisor. The differential will not be paid for any benefit time used.

This MOU does not authorize the temporary supervisor to:

- Change departmental policies
- Issue any formal discipline

If changes in responsibilities occur, or if the agreement proves to be ineffective, both parties agree to meet to resolve the issue.
